60 or over 48%

Age 21 – 40 13%

Age 41 – 60 38%

97% white British

3% other

All members of our Patient Reference Group were invited to a meeting at the surgery on 14th March 2013 to discuss the findings from this questionnaire and to review the actions from last years meeting.

Actions planned as a result of the survey and meeting

Availability/awareness – This showed a high percentage of awareness of our appointment availability. Although less the 50% were aware of our late evening appointments, our late evening appointments are well used.

Satisfaction of appointments – This questionnaire revealed a high percentage of satisfaction of our appointments. After discussion it was felt that we would continue to strive to balance out our routine and urgent appointment provision as best we can.

Website – The result of the questionnaire showed a high percentage of patients that were unaware of our website. We are going to advertise the website using advertising posters and our Jayex information board in the waiting room and create slips promoting the website which can be given to patients upon request and also printed on the repeat prescription request sheet.

Waiting Room – The survey showed that the patients were happy with the waiting room, however, several comments were made on the comment part of the questionnaire, which we addressed at the meeting. These were as follows: more chairs with arms, after discussion the group thought the higher seated armchairs would be even better than more seats of the same in the waiting room. These chairs will be purchased as soon as possible. Too hot in the waiting room and water to drink, we turned down the thermostat in the waiting area but it was also discussed that patients had differing levels of heat tolerance and that patient also sit in the waiting area in the outdoor clothes. We will put a sign up in the waiting area offering patients water if requested. It was felt that a water dispenser in this area was a hazard, a water cooler is available the corridor. After discussion with the group we will also put a sign up to offer patients the facility to speak to a dispenser or a receptionist privately.

Achievements and actions from last years meeting.

Website – We have implemented the booking of routine appointments and prescription requests via our website. This has gone extremely well with ever increasing number of patients registering with the website.

DNA's - Searches are run every month on our "Did Not Attend" appointments and the numbers advertised in the surgery.

Patient Transport - We have managed to source to local transport schemes and these have been advertised on our notice boards and information slips are available upon request.

Name badges for staff – Name badges for staff have been purchased and are now worn by all staff .

Telephone answering – All staff now introduce themselves when answering telephone calls.

Patient results – Efforts are now made to match method of giving test results to patient preference.

Surgery opening hours.

The surgery is open daily from **8.00am - 6.30pm** and until 7pm on a Monday, Tuesday and Thursday. Reception staff are available during this time to help with any enquiries.

Consultations will be as follows;

	Morning	Afternoon	Extended Hours
Monday	Dr Johnson Dr Lucy Lake	Dr Johnson Dr Sivyer	Dr Johnson Dr Sivyer
Tuesday	Dr Ian Lake Dr Lucy Lake	Dr Ian Lake	Dr Ian Lake
Wednesday	Dr Sivyer Dr Ian Lake	Dr Sivyer	
Thursday	Dr Johnson Dr Lucy Lake	Dr Johnson Dr Lucy Lake	Dr Lucy Lake
Friday	Dr Sivyer Dr Ian Lake	Duty Doctor One of Regent Street Drs	

This report will be distributed to the patient reference group, displayed in the waiting room and on the website. Further feedback will be invited. A further questionnaire and meeting will be held next year. Progress of actions taken will also be advertised.
